Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: the prior art record (US 2001/0048713) fail to anticipate or render obvious the claimed periodic digital signal detector apparatus, comprising: means for matched filtering a portion of a periodic digital signal, said portion having a duration smaller than a duration of the periodic digital signal; means for determining a phase offset of the periodic digital signal based on matched filtering of said portion of the periodic digital signal; means for correlating the periodic digital signal; means for searching for a first match between the periodic digital signal and a first expected digital signal; means for providing a relative time when the first match occurs; means for determining an offset of the periodic digital signal based on the relative time and an absolute time; and means for providing said offset information to the correlator as claimed in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
